

# CJW Medical Center

Chippenham & Johnston-Willis

January 20, 2004

To Whom It May Concern:

It is a pleasure to write this letter of recommendation on behalf of the band, "Rythmasters." I have booked this band for the past two years for CJW Medical Center's annual Medical Staff Holiday Reception. This event is held immediately after our December Medical Staff meeting and is attended by our physicians and Administrative Team.

I have contacted Mr. Tommy Daughtrey and expressed our interest in booking the band for our Medical Staff Holiday Reception again this year. Since booking the "Rythmasters," we have "raised the bar" on this event and the expectation is that we'll continue to provide this level of entertainment for the evening.

For the past two years, our office has received so many complimentary comments concerning the band. The members are cordial, enthusiastic and entertaining. They play a variety of music and in December combined traditional holiday music and other selections. In addition, it has been our good fortune that their singer has been available for our events. She has an amazing voice and captivates her audience.

I would highly recommend the "Rythmasters" for any social event. We look forward to hearing them again at our Holiday Reception in December.

Sincerely,

Nancy S. Varmette
